

# Modified Ashworth Scale Instructions

## General Information (derived Bohannon and Smith, 1987):

- Place the patient in a supine position
- If testing a muscle that primarily flexes a joint, place the joint in a maximally flexed position and move to a position of maximal extension over one second (count "one thousand one")
- If testing a muscle that primarily extends a joint, place the joint in a maximally extended position and move to a position of maximal flexion over one second (count "one thousand one")
- Score based on the classification below

## Scoring (taken from Bohannon and Smith, 1987):

- 0      No increase in muscle tone
- 1      Slight increase in muscle tone, manifested by a catch and release or
